

Gate To Plate Genetics

At BHB our cattle have to work at every point in the industry

- This past year we retained ownership on 255 head of steers and out of our genetics, they graded 96% choice and prime.
- The year before 280 head graded 94% choice and prime.
- Our bulls on test last year converted 4.6 lbs dry matter to 1 lb of gain.
- We produce seedstock that will work in our environment with heat , humidity and fescue.
- Focusing on efficient, fertile animals.

***Bulls & Females offered by
private treaty at the farm.***
