

TC COWS MAKE THE DIFFERENCE

The TC Ranch program has always been known for the bulls we have produced. However, probably the cowherd behind these bulls is really the backbone of the program. Cows that have been selected for over 62 years for performance, udder quality, disposition and longevity. These cows must calve on their own, breed back and raise a big healthy calf year after year. Visitors to TC Ranch believe this cowherd is one of the best kept secrets. Come see for yourself.

**Offering for Sale by Private Treaty starting October 3rd
80 registered mature cows • 30 registered bred heifers
250 commercial bred heifers - TC Ranch genetics AI'd in large groups**
