***Please watch for our consignments at the
Heart of the Ozarks Sales in 2012!***

Our focus is producing cattle that work for the commercial cattlemen. We select for moderate framed cattle that exhibit mass and fleshing ease, while still maintaining a maternal look with strong udder quality. From a performance standpoint we select for high weaning weights and large scrotal measurement while not sacrificing calving ease, milk and carcass traits. At Sinning Cattle Company it is our philosophy to breed for a balance of all traits, to produce cattle that offer true genetic enhancement that will improve the herds of our costumers.
